

The Arts, Literature and Communication (ALC) program offers its students an opportunity to explore, create and appreciate culture in a well-structured program. ALC offers a wide variety of courses with teachers who are professionals in their field, using an innovative multimedia and multi-disciplinary approach. This program provides students with a broad knowledge base and an excellent opportunity to develop their imagination, technical skills and critical thinking. It is a flexible program designed to allow students to choose from a variety of courses in cultural studies, languages and production.

Students leave this program with an understanding of cultural institutions and their place in society, as well as an appreciation of the socio-cultural implications of the arts and/or languages.

Our facilities at John Abbott College include a darkroom photography lab, video and radio studios, up-to-date language labs, creative writing classrooms, a fully-equipped theatre and Mac labs for digital photo, digital media, filmmaking and animation.

Our Arts, Literature and Communication program is built on the idea that students follow their own creative path. During the course of their two years with us, students discover creative and cultural areas in which they are strongest. This knowledge will propel ALC graduates to university studies in which the student excels.
