- Professional Theatre
- Youth & Adult Correctional Intervention

BIOPHARMACEUTICAL PRODUCTION TECHNOLOGY 235.C0

Interested in a career in the biotechnology sector? Are you organized, detail-oriented and do you have good problem-solving skills? With state-of-the-art lab facilities as well as a final semester stage in industry, this program prepares students to work as technicians in pharmaceutical, cosmetic, nutraceutical, food and beverage production and packaging, as well as in quality control, quality assurance, and regulation.

biopharma@johnabbott.qc.ca • johnabbott.qc.ca/biopharma

BUSINESS MANAGEMENT 410.D0

Are you interested in exciting career opportunities in marketing and sales management? Whether your interest is in retail management, sports marketing, tourism, import/export development or event planning, this is the program for you! The early semesters include foundation courses in accounting, finance, human resources, and law. In later semesters, the emphasis turns to marketing, with a strong project focus tied to real-world issues. Market analysis, consumer behaviour, internet marketing, and advertising are just a few of the areas to explore. A co-op option with paid stage in industry is also available.

business.admin@johnabbott.qc.ca • johnabbott.qc.ca/businessadmin

COMPUTER SCIENCE TECHNOLOGY 420.B0

Are you passionate about finding unique and creative solutions and committed to reaching your goal in all types of projects? This program teaches computer programming, applications, problem solving, telecommunications, database design, multimedia and internet programming, networking, game programming, office systems installation, and technical support.

computerscience@johnabbott.qc.ca • johnabbott.qc.ca/computerscience

DENTAL HYGIENE 111.A0

Are you scientifically inclined, efficient, and do you enjoy working as part of a team? This program trains students to become dental hygienists. Students learn to assess their clients' oral health needs, take dental x-rays, design individual dental hygiene care plans, perform periodontal debridement, insert fillings, and apply other preventive measures.

dental.hygiene@johnabbott.qc.ca • johnabbott.qc.ca/dentalhygiene

ENGINEERING TECHNOLOGIES 244.A0

Fascinated by science and technology? This program combines electronic, mechanical, thermal, computer, automation, and photonic technologies. It provides students with a hands-on approach and it is the only engineering technologies program of its kind in Québec.

engineering.tech@johnabbott.qc.ca • johnabbott.qc.ca/engineeringtech

GRAPHIC & WEB DESIGN 412.AB

Enjoy working with computers and different software? This program offers students the opportunity to develop skills in website interface design and integration, publication design, and graphic design, skills needed by today's businesses. In the final semester, students apply the knowledge and skills they have acquired by entering the workplace for a three-week fieldwork placement. A co-op option with paid *stage* in industry is also available.

gwd@johnabbott.qc.ca • johnabbott.qc.ca/graphicweb

INFORMATION & LIBRARY TECHNOLOGIES 393.B0[†]

Curious? Meticulous? Possess good people skills? This program provides students with the skills they need to work in the rapidly evolving field of information management and focuses on the technical aspects of this area of expertise. Information technicians learn techniques for organizing and retrieving information in a wide variety of settings.

ilt@johnabbott.qc.ca • johnabbott.qc.ca/ilt

NURSING 180.A0[†]

Possess good observational and problem solving skills? Are you trustworthy and accountable? The Nursing program combines classroom and laboratory experiences with clinical fieldwork in Montreal area hospitals. Students work in specialties ranging from obstetrics, pediatrics, medicine and surgery to geriatrics, psychiatry, and ambulatory care.

nursing@johnabbott.qc.ca • johnabbott.qc.ca/nursing

PARAMEDIC CARE 181.A0

Possess leadership and organizational skills? Analytical thinking? This program prepares students to intervene with people of all ages and conditions who require pre-hospital emergency care. Their interventions consist of providing primary care of a medical, traumatic, or behavioural nature. They are also trained to respond to situations such as disaster relief, fires, floods, or incidents involving antisocial behaviour.

paramedic@johnabbott.qc.ca • johnabbott.qc.ca/paramedic

POLICE TECHNOLOGY 310.A0

Do you have courage, maturity, and strong communication skills? Police Technology prepares students for a career in law enforcement with police forces across Québec. Police officers keep the peace, protect people and property, prevent crime, and enforce both criminal and civil laws. They reassure victims, arrest criminals, and act as peacemakers or mediators.

policetech@johnabbott.qc.ca • johnabbott.qc.ca/policetech

PROFESSIONAL THEATRE 561.C0 OR 561.A0

Thrive in an artistic environment? This program teaches students the essential skills required to work in today's theatre industry using professionally equipped facilities. The Theatre program offers training to future actors as well as to students interested in working behind the scenes on the technical and design aspects of theatre productions.

theatre@johnabbott.qc.ca • johnabbott.qc.ca/theatre

YOUTH & ADULT CORRECTIONAL INTERVENTION 310.B0

Are you ready to act as a role model? This program provides students with a solid foundation in applied social sciences, criminology, penal law, and psychology. Graduates will be prepared to act as authority figures and role models. They will also develop professional skills enabling them to work in a helping relationship to facilitate social reintegration.
