

New Complementary Course
201-DAC-AB

Math Puzzles, Games, and Other Diversions

Are you interested in ...

- Learning how to solve various puzzles and riddles?
- Hearing stories and details about how people used their math skills to beat the casino?
- Learning the secrets behind magic tricks that leave people scratching their heads in disbelief?

PLUS we'll discuss cheating in elections, secret messages, impossible objects and much more.

OPEN to all students
Wednesday and Friday 11:30-13:00
Instructor: Derrick Chung
